

new

Chiltern Invadex can now supply a hoist personalisation kit which enables users to apply any images they wish to the sides of the 100Plus hoist.

The kit contains blank self adhesive labels which can be passed through any suitable laser printer to add an element of fun and colour to the hoist casing.

Ideal for paediatric use, the labels can be combined with our range of coloured and patterned paediatric slings.

The kits are supplied with label templates to assist with correct positioning of the images and full user instruction.

The kit is available by contacting Customer Services on 01869 365500 opt 1 or by email to sales@chilterninvadex.co.uk.

For further details please contact Customer Services.
