

The Chiltern Invadex sling range offers a number of paediatric sizes in various fabrics and colours to make the hoisting experience less clinical.

Each model and fabric range has been extensively tested to ensure the comfort and safety of the user.

We now offer the following paediatric ranges;

-  Universal - a general use sling offering good lower body support.
-  Universal Deluxe - a full support sling providing boned, padded head support.
-  Deluxe Hammock - offers secure, comfortable fit around the hips, with toileting aperture.
-  Extensor Hammock - Deluxe hammock with extensor straps and padded head support.
-  In-Situ Hammock - an in-chair spacer sling provided with strap pockets.
-  Classic Toileting - a classic toileting sling with wide padded legs for comfort.
-  Deluxe Toileting - classic toileting sling with extensor straps and head support.
-  Full Support Toileting - toileting sling with self tightening body straps, allowing users arms to remain inside the sling during transfer.

In addition to standard blue polyester, slings are offered in mesh and 3D spacer fabrics, colour options are also available.

Cartoon fabrics* can be used to line the slings providing visual stimulation and a sense of personalisation.

Where a child has specific needs, we are able to produce custom made slings to ensure that they feel secure and comfortable during transfer. For a full product brochure or to request a survey/demonstration visit please contact customer services on 01869 365500 Opt 1 or email us at sales@chilterninvadex.co.uk.

Chiltern slings have been developed to complement the Wispa range of hoists, however can be used with various two and three prong spreader bars (subject to assessment of risk).

*cartoon fabrics vary, please contact customer services for details of current stock.
