Cubicle Range

The Chiltern Invadex range of shower cubicles have been specifically designed to provide an affordable showering solution for those who are unable to access a conventional bathroom.

Developed as a freestanding unit requiring no tiling or excavation, cubicles can be installed in virtually any room and are perfect for use in downstairs living area adaptations.

Designed to be installed in just one day (subject to access to services) and easily dismantled for re-use/re-location, the Chiltern Invadex cubicle range is ideal for permanent or temporary use.

With a variety of sizes, there is a cubicle to fit neatly into almost any room.

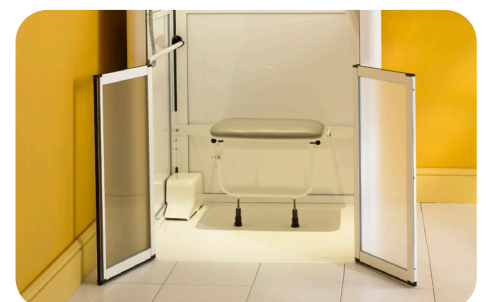

The range consists of six cubicles;

Three shower cubicles

Three shower toilet cubicles

Cubicles can be recessed into the floor to create level access. This requires floor excavation and is suitable for more permanent installations.

Shower Cubicles

Shower Cubicles

Shower Toilet Cubicles

Shower Cubicle Seats (not suitable for use in shower toilet cubicles)

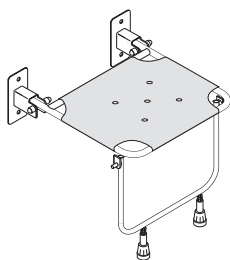

A number of shower seats have been produced to complement the shower cubicle range, height of the seat is set at time of manufacture to suit individual user needs.

Fold Up Seats

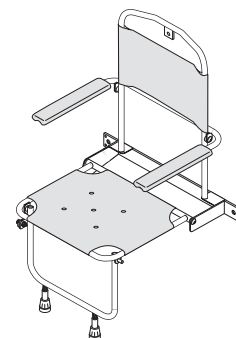

The fold up seat range folds neatly against the cubicle wall when not in use, allowing cubicles to be utilised by multiple users with varying abilities.

Fold up seats can be used in any of the side and front entry shower cubicles.

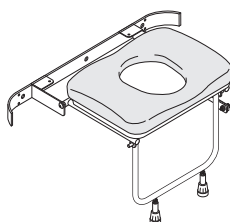

Vinyl seats

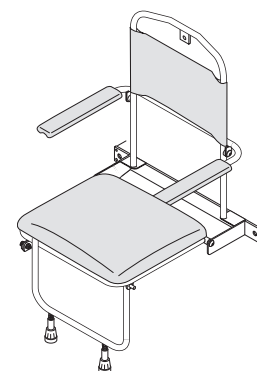

Manufactured in grey reinforced PVC, vinyl seats provide a sturdy and cost effective seating solution.

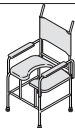

Padded seats

Padded seats are upholstered for added comfort, they are available as shown or with the addition of a horseshoe or full ring aperture (shown left) to assist bathing.

Shower Chairs and Cradles

The Chiltern Invadex range of shower chairs and cradles has a proven track record for providing a safe and reliable bathing solution for wheelchair users.

Manufactured at our Oxfordshire facility, we are able to manufacture bespoke models to suit specific user needs.

Aquamaster 17", 19" & 21" widths				Paediatric 15"	Transaqua 18", 19" & 21"	
A02	A06	A08	A11	A20 & A21	TAAP	TASP
						

The A06, A11 and our Tilt in Space chair (below) are available as a Closomat model to suit the Palma Vita. Bespoke models can be manufactured on request.

Tilt in Space Shower Chair

A range of tilt in space shower chairs and cradles have been developed for use by those with more challenging needs.

Some sizes can be used in conjunction with the 120Plus cubicle.

Tilt in Space Shower Cradle

The AquaMaster and Tilt in Space ranges are available in both adult and paediatric sizes with numerous colour options on request.

A large range of accessories is available for all ranges.

Shower Trolleys & Stretchers

Our range of shower trolleys and stretchers are designed for use by those who need to be showered in the prone position. Bespoke models can be manufactured to suit user needs and property constraints.

Trolleys

Hydraulic model with standard grey liner

Static and height adjustable models are available. Height adjustment can be provided by hydraulic rams or electronically via a handset. All models have a drainage hose which can be placed into any waste water drain, no trolley specific plumbing is required.

Shower trolleys feature side rails for added security and a padded liner and head cushion for comfort.

Trolleys are available in two standard lengths to suit both adult and paediatric use.

Liners are available in a number of colour options.

Stretchers

Shower stretchers are wall mounted and can be used over a bath or in a wet room scenario. They have been designed to fold securely against the wall when not in use, ensuring that bathing facilities can be used by multiple users of varying abilities.

Three standard models are available, T11 is a flat bed stretcher, T12 has a variable height backrest and the T13 which features a padded liner, cot side and drainage hose. The T13 can be provided with a coloured liner and head cushion.

T11

T12

T13

The new T17 folding stretcher is a transportable model featuring:

- 4 braked (optional directional lock castor)
- 3 levels of height adjustment
- Head cushion
- Easy clean soft vinyl top with drainage holes
- Can be folded flat for storage
- Optional side rails

T17

Shower Units

Mira Advance

- Mira Advance 9Kw electric shower has a push button stop and flow controls which are independent of the temperature dial
- Safe showering with precise thermostatic control for constant water temperature
- ATL - Adjustable Temperature Limit for added safety
- Instantly heats water to guarantee a hot shower every time
- Smooth slide bar with easy glide operation
- Additional handset holder for flexible showering heights

Mira Excel

- Showering with precise thermostatic control, recognising and compensating for changes in water temperature to provide an extremely safe and satisfying shower
- Easy installation features save time and installation costs
- Includes maximum temperature stop for safe showering

SaniPRO Up Small Bore Macerator

- Breaks down waste from a shower, wash basin or W.C for pumping away through a small bore (22mm) pipe
- A powerful motor enables the unit to pump the waste and water up to 5m vertically, 100m horizontally or a lesser combination of both, where conventional large bore pipework is impractical
- Features a new case with sound reduction and integrated carbon filter
- Can be used with Whale pump option

Shower Screen

The Chiltern Invadex Portascreen is designed for use in a wet room environment. The half height screen enables carers to assist with bathing whilst protecting them from splashes. Available in two sizes, the portascreen is compact and free standing, it can be easily folded and stored when not in use.
